

JOURNEY

AT PROJECT SELF-SUFFICIENCY

What is a Family Success Center?

Family Success Centers are spaces for community to gather and grow, where all are welcome. The Journey Family Success Center is a scenic campus in Newton where residents can come to get help or give it through volunteer opportunities.

Those looking for support will find it in the form of basic needs assistance, counseling and support groups, and a wide array of services to promote self-sufficiency. To help navigate all of this, each participant will be paired with a **case manager**. This person becomes the main point of contact and will offer one-on-one supportive counseling, help setting and tracking goals, and information, referral and advocacy to connect with local resources.
